

Massachusetts Prescription Monitoring Program (PMP)

The new online system, Massachusetts Prescription Awareness Tool (MassPAT), will be live summer 2016!

MassPAT Allows for...

- Easily navigable prescription history
- EMR integration
- Prescription history of other states
- Timely data (24 hr.)
- 12 months of prescription history
- Enhanced search
- Simplified log in process

Requirements

- Pharmacies must send Sch. II-V dispensation data to the PMP daily as described in the Data Submitters Guide
- Practitioners are required to use MassPAT before prescribing a Sch. II-III drug
- Practitioners are required to use MassPAT before prescribing a benzodiazepine or a DPH designated Sch. IV-V for the 1st time.

Please see 105cmr700.012 and Chapter 52 - Acts of 2016, An Act Relative to Substance Use Treatment, Education and Prevention for more information

User friendly Interface

The screenshot shows the MassPAT interface with a top navigation bar (Home, Data, RxSearch, Insight, Admin, Settings, User Profile, Help) and a sub-navigation bar (RxSearch, Patient Request, Requests History, Requests Processing, MyRx, Patient Alerts). The main content area displays a 'Patient Request' for 'bob testpatient' with a report prepared on 01/20/2016 and a date range of 01/20/2013-01/20/2016. A summary shows 6 prescriptions, 4 prescribers, 3 pharmacies, 5 private pay, and 0 active morphine mgEq. A table of prescriptions follows, with columns for Filled, ID, Written, Drug, QTY, Days, Prescriber, Rx #, Pharmacy*, Refills, MgEq, Pymt Type, and PMP. The table lists several prescriptions for Percocet, Zolpidem, and Acetaminophen. Below the table, a 'Prescribers' section shows details for 'Doctor, Appriss D' and 'TESTPRESCRIBER, ALICE'. Annotations on the right side of the screenshot point to specific features: 'Ability to export report' (pointing to PDF and Excel icons), 'Ability to sort columns' (pointing to the table header), and 'Ability to search out of state data' (pointing to the 'Pharmacy*' column).

- Data Submitters Guide released
- PMP Clearinghouse profile set-up began (3/1/16)

- Data submission transfers from Atlantic Associates to Appriss' PMP Clearinghouse (5/31/16)
- MassPAT profile set-up begins
- MassPAT System launch!

- User trainings & engagement
- EMR linkage preparations

- EMR integrations
- Interstate interoperability

Implementation Timeline
